

Scania Year-end Report January-December 2019

Summary of the full year 2019

- To fight climate change, Scania is setting Science Based Targets in line with limiting global warming to 1.5°C
- Net sales increased by 11 percent to SEK 152,419 m. (137,126)
- Operating income increased by 26 percent to SEK 17,488 m. (13,832)
- Cash flow amounted to SEK 10,994 m. (3,718) in Vehicles and Services

Comments by Henrik Henriksson, President and CEO

"2019 was a year of continued growth and many records for Scania. Vehicle deliveries reached historically high levels as did service volume. Net sales amounted to record high SEK 152.4 billion, 11 percent up from previous year. Earnings were the highest ever at SEK 17,488 m., and operating margin 11.5 percent. Higher vehicle and service volume, currency effects and market mix contributed positively. Service revenue increased by 9 percent to SEK 28.9 billion. Operating income for Financial Services was a record high SEK 1,511 million.

Total order bookings for trucks and buses and coaches fell by 9 percent in 2019 compared to 2018. Demand for trucks in Europe slowed in the second half of 2019 due to a weakening economic cycle. In Latin America, Brazil's recovery is progressing slowly. In Eurasia and Asia demand is impacted by political and trade-related concerns. For buses and coaches orders decreased in most regions. Scania managed to partly compensate the demand drop in the Middle East. Order intake in Engines was good, despite strong comparative figures 2018.

Adjustments of structural costs to lower volume is ongoing and we are continuously reviewing staffing and consultant assignments for projects. It is a necessity for Scania to continue making large-scale investments in new technologies to help drive the shift towards sustainable transport.

To succeed in the transition to a fossil-free transport system, biofuels are crucial. In 2019, Scania increased sales of vehicles that run on alternatives to diesel by 46 percent (6,631 vehicles). There is great potential for

wider use of biofuels as all Scania vehicles can run on biodiesel-HVO. Biofuels are available right now, while it is taking time for new technology to impact reduction of carbon emissions. In parallel with scaling up use of biofuels, Scania needs to invest in new technology and infrastructure for a gradual changeover to electrification.

In the electrification of heavy vehicles, there is no silver bullet but Scania is developing several technologies, often with customers. One technology track developed with grocery wholesaler ASKO is fuel cell electric trucks powered by hydrogen gas. The trucks recently entered into operation in Trondheim, Norway where ASKO opened a hydrogen gas station. In addition, Scania's fully electric battery-powered trucks for city distribution were installed in the customer's Oslo operations.

To reduce greenhouse gases at the rate and extent recommended by science, Scania is setting Science Based Targets in line with limiting global warming to 1.5°C. Scania thereby not only commits to reducing its own emissions, but also to achieving reductions where the main CO₂ emissions occur – when the products are used.

The full impact on Scania due to the outbreak of the Coronavirus is not currently possible to predict, given the uncertainty of the situation. We are following developments day-by-day and keep a tight dialogue with our customers, suppliers, union representatives and other partners."

Business overview

Excluding items affecting comparability (Q2 2016)

Sales performance

Total vehicle deliveries increased by 3 percent during 2019 to a record high 99,457 (96,477) units, compared to 2018. Group net sales rose by 11 percent to SEK 152,419 m. (137,126), also an all-time high for Scania.

Weaker demand in several regions

The demand situation is slightly weaker compared to the previous year's high levels and total order bookings for trucks and buses and coaches fell by 9 percent during 2019 compared to 2018.

Demand for trucks in Europe slowed during the second half of 2019 due to a weakening economic cycle where customers see a limited need to expand their fleets in order to meet transport needs. In Latin America, Brazil's recovery is still progressing slowly. In Eurasia and Asia, demand is impacted by political and trade-related concerns. Russia as a market is still volatile and the outlook is difficult to judge due to changed trading rules. In China, the market is cautious within Scania's segment.

Buses and coaches were negatively impacted by lower order bookings in most regions. We have managed to partly compensate the drop in demand in the Middle East.

Demand in the Engines business area is good, despite strong comparative figures in the previous year due to pre-buys ahead of new emission standards in Europe.

The truck market

Order bookings

Scania's order bookings fell during the fourth quarter of 2019 and totalled 20,663 (22,736) trucks. Order bookings in Europe fell by 33 percent to 11,047 (16,413) units, compared to the fourth quarter of 2018. Demand decreased in Great Britain, Poland and Germany, which was partly offset by an increase in Austria and Ireland.

Order bookings in Latin America rose during the fourth quarter of 2019 to 4,184 (1,866) trucks, mainly related to Brazil, Argentina and Mexico, which was partly offset by a decrease in Chile.

In Eurasia, total order bookings rose during the fourth quarter and amounted to 2,239 (896) trucks, an upturn that was primarily related to Russia.

In Asia, total order bookings rose during the fourth quarter and amounted to 2,325 (1,969) trucks. The upturn was primarily related to Taiwan, which was partly offset by a downturn in China.

In Africa and Oceania, order bookings were lower compared to the fourth quarter of 2018, mainly related to South Africa and Australia, but this was offset somewhat by an increase in Morocco. Order bookings amounted to 868 (1,592) units.

Deliveries

Scania's total truck deliveries decreased by 12 percent to 22,684 (25,862) units during the fourth quarter compared to the same period in 2018. In Europe, deliveries fell by 14 percent to 12,704 (14,839) units, compared to the fourth quarter of 2018. In Eurasia, deliveries fell to 2,706 (3,165) trucks. In Latin America, deliveries decreased to 3,169 (4,192) units, compared to the fourth quarter of 2018. In Asia, deliveries rose by 15 percent compared to the fourth quarter of 2018, to 2,701 (2,339) trucks. In Africa and Oceania, deliveries rose by 6 percent to 1,404 (1,327) trucks.

Net sales

Net sales of trucks rose by 15 percent to SEK 98,292 m. (85,231) during the full year 2019. During the fourth quarter, sales fell by 2 percent to SEK 24,823 m. (25,276).

The total European market for heavy trucks

The total market for heavy trucks in 27 of the European Union member countries (all EU countries except Malta) plus Norway and Switzerland increased by 0.3 percent to about 320,700 units (319,700) during 2019. Scania truck registrations amounted to some 60,500 (52,700), equivalent to a market share of about 18.7 (16.3) percent.

The bus and coach market

Order bookings

Order bookings for buses and coaches in 2019 fell compared to the previous year to 7,387 (8,706) units. During the fourth quarter, order bookings fell to 1,495 (2,221) units, compared to the fourth quarter of 2018.

In Europe, order bookings fell and amounted to 443 (589) units during the fourth quarter. Order bookings fell primarily in Finland and Spain, but this was offset somewhat by an upturn in Sweden. In Latin America, order bookings fell to 526 (885) units compared to the fourth quarter of 2018. In Asia, order bookings rose to 422 (215) buses and coaches compared to the fourth quarter of 2018, mainly related to Taiwan, which was partly offset by a downturn in Israel. Order bookings in Eurasia fell compared to the year-earlier period and amounted to 1 (4) unit. Order bookings in Africa and Oceania fell to 103 (528) buses and coaches.

Deliveries

Scania's bus and coach deliveries totalled 2,053 (1,976) units during the fourth quarter. In Europe, deliveries fell to 526 (561) units compared to the fourth quarter of 2018. In Latin America, deliveries rose to 882 (840). In Asia, deliveries rose to 327 (304) during the fourth quarter, while deliveries of buses and coaches in Africa and Oceania rose to 254 (240) units. Deliveries to Eurasia rose to 64 (31) units.

Scania's market share in buses and coaches in Europe amounted to 6.4 percent in 2019 compared to 7.1 percent during the previous year.

Net sales

Net sales of buses and coaches rose by 3 percent to SEK 11,958 m. (11,658) during the full year 2019. During the fourth quarter, sales were in line with the previous year and totalled SEK 3,083 m. (3,088).

Engines

Order bookings

Total engine order bookings fell by 16 percent to 10,465 (12,440) units during the full year 2019 compared to 2018. The downturn was primarily related to Great Britain, Germany and South Korea, which was partly offset by decreases in China and Poland. During the fourth quarter, order bookings rose by 22 percent to 3,713 (3,037) units.

Deliveries

Engine deliveries fell by 21 percent to 10,152 (12,809) units during 2019. The downturn was mainly attributable to the previous year's pre-buy effect in Europe and a decrease in South Korea, which was partly offset by China, the Czech Republic and Poland. During the fourth quarter, deliveries fell by 31 percent to 2,953 (4,271) units, mainly related to decreases in Germany, Great Britain and South Korea, which was partly offset by China, Italy and Poland.

Net sales

During 2019, sales fell by 13 percent to SEK 2,409 m. (2,769). Net sales in the fourth quarter amounted to SEK 683 m. (914), a decline of 25 percent.

Services

Service revenue amounted to SEK 28,971 m. (26,588) during 2019, an increase of 9 percent. Higher volume in Europe and currency effects had a positive impact. In local currencies, revenue increased by 6 percent.

In Europe, service revenue rose by 9 percent to SEK 19,881 m. (18,314) compared to 2018. In Latin America, revenue rose by 9 percent to SEK 3,331 m. (3,051) and service revenue in Eurasia rose by 24 percent to SEK 989 m. (797) compared to 2018. Service revenue in Asia was 8 percent higher than the previous year at SEK 2,846 m. (2,626). In Africa and Oceania, service revenue rose by 7 percent to SEK 1,924 m. (1,800).

Earnings

Vehicles and Services

Full year 2019

Operating income in Vehicles and Services totalled SEK 15,977 m. (12,392) during 2019. Higher vehicle and service volume, currency effects and the market mix contributed positively. Compared to 2018, the total currency effect was positive and amounted to about SEK 1,900 m.

Scania's research and development expenditures amounted to SEK 7,244 m. (7,603). After adjusting for SEK 1,788 m. (1,996) in capitalised expenditures and SEK 706 m. (727) in depreciation of previously capitalised expenditures, recognised expenses decreased to SEK 6,162 m. (6,334).

Fourth quarter

Operating income in Vehicles and Services totalled SEK 3,196 m. (3,298) during the fourth quarter of 2019. Lower vehicle volume impacted earnings negatively while currency effects contributed positively. Compared to the fourth quarter of 2019, the total currency rate effect was positive and amounted to SEK 744 m.

Scania's research and development expenditures amounted to SEK 2,074 m. (2,147). After adjusting for SEK 449 m. (661) in capitalised expenditures, and SEK 188 m. (175) in depreciation of previously capitalised expenditures, recognised expenses increased to SEK 1,813 m. (1,661).

Financial Services

Customer finance portfolio

At the end of the fourth quarter of 2019, the size of Scania's customer finance portfolio amounted to SEK 103.8 billion, which was SEK 14.6 billion higher than the end of 2018. In local currencies, the portfolio increased by SEK 11.6 billion.

Penetration rate

The penetration rate was 42 (43) percent in 2019 in those markets where Scania has its own financing operations.

Operating income

Operating income in Financial Services increased to SEK 1,511 m. (1,440) during 2019, compared to the same period in 2018. A larger portfolio and currency effects had a positive impact on earnings, while decreased margins and increased operating cost had a negative impact.

Scania Group

During 2019, Scania's operating income amounted to SEK 17,488 m. (13,832). Operating margin amounted to 11.5 (10.1) percent. Scania's net financial items amounted to SEK -1,012 m. (-513).

The Scania Group's tax expense amounted to SEK 4,092 m. (3,585), equivalent to 24.8 (26.9) percent of income before taxes. Net income for the period totalled SEK 12,384 m. (9,734), equivalent to a net margin of 8.1 (7.1) percent.

Cash flow

Vehicles and Services

Scania's cash flow in Vehicles and Services amounted to SEK 10,994 m. (3,718) during 2019. Tied-up working capital decreased by SEK 3,372 m. mainly due to decreased accounts payable.

Net investments amounted to SEK 7,518 m. (7,139), including SEK 1,788 m. (1,996) in capitalisation of development expenditure. At the end of the fourth quarter of 2019, the net cash position in Vehicles and Services amounted to SEK 17,057 m. compared to a net cash position of SEK 16,926 m. at the end of 2018. The net cash position was negatively impacted by a paid out dividend and lease liabilities related to IFRS 16, offset by the positive cash flow of the year.

Scania Group

Scania's cash flow in Financial Services amounted to SEK -10,632 m. (-10,743) during 2019 due to a growing customer finance portfolio. Together with the positive cash flow in Vehicles and Services, the Group's net debt increased by about SEK 12.4 billion compared to the end of 2018. The net debt position was negatively impacted by a growing customer finance portfolio, the paid out dividend and lease liabilities related to IFRS 16.

Parent Company

The assets of the Parent Company, Scania AB, consist of shares in Scania CV AB. Scania CV AB is the Parent Company of the Group that comprises all production and sales and service companies as well as other companies. Income before taxes of Scania AB totalled SEK 0 m. (13,853) during 2019.

Miscellaneous

Number of employees

At the end of 2019, the number of employees totalled 51,278 compared to 52,150 on the same date in 2018.

Material risks and uncertainties

The Corona virus outbreak has resulted in many countries taking measures to limit the spread of the virus. The full impact on Scania due to the outbreak of the Coronavirus is not currently possible to predict, given the uncertainty of the situation. We are following developments day-by-day and keep a tight dialogue with our customers, suppliers, union representatives and other partners. We are taking a number of risk mitigating actions to try and safeguard the health of our employees and plan for different business scenarios depending on the development of the outbreak, temporary close down of factories could be one scenario.

The section entitled "Risks and risk management" in Scania's Annual and Sustainability Report describes Scania's strategic, operational, legal and financial risks. Note 2 of the same report provides a detailed account of key judgements and estimates. Note 27 of the same report describes the financial risks, such as currency risk and interest rate risk. The risks that have the greatest impact on financial performance and on reporting for the Group and the Parent Company are summarised as follows:

a) Sales with obligations

About 13 percent of the vehicles Scania sells are delivered with repurchase obligations. These are recognised as operating lease contracts, with the consequence that recognition of revenue and earnings is allocated over the life of the obligation (contract).

b) Credit risks

In its Financial Service operations, Scania has an exposure in the form of contractual future payments. This exposure is reduced by the collateral Scania has in the form of the right to repossess the underlying vehicle. In case the market

value of the collateral does not cover the exposure to the customer, Scania runs a credit risk. Reserves for probable losses in Financial Service operations are set aside in the estimated amounts required.

c) Legal risks

In 2011, Scania became subject of an investigation by the European Commission (EC) into allegedly inappropriate cooperation with other European truck manufacturers. A Statement of Objections was served on Scania by the EC in November 2014. In light of such statement and other developments in the investigation and in accordance with relevant accounting principles, Scania made a provision with an amount of SEK 3,800 m. in June 2016. Scania always cooperated fully with the EC, while all through the investigation contesting the EC's view that Scania would have participated in a pan-European cartel during 1997–2011 on pricing and delayed introductions of emissions related technology. Scania were served with a final decision by the EC in October 2017, holding Scania liable for such scope of a cartel in the amount of around SEK 8.4 bn. (EUR 881 m.) in fines. Scania have appealed against this decision in its entirety, and has in January 2018 provided a guarantee as security for the fines pending the outcome of such appeal. Scania is also the subject of related civil claims by direct or indirect customers of Scania, and may face additional similar claims. However, at this stage it is not possible to give any meaningful indication as to Scania's risk associated with private damages. Scania's appeal against the EU Commission decision before the General Court is still pending and there is also great uncertainty around the extent to which claims will be made against Scania. In addition, risk assessment around claims that have already been made is associated with significant uncertainties, and investigations are in their initial stages only.

Accounting principles

Scania applies International Financial Reporting Standards (IFRSs) as adopted by the EU. This Interim Report for the Scania Group has been prepared in accordance with IAS 34, "Interim Financial Reporting" and the Annual Accounts Act.

New accounting principles from the 2019 financial year

IFRS 16 Leases, applied as from 1 January 2019, amends the rules for lease accounting and replaces the previous IAS 17 standard and related interpretations. The main objective of IFRS 16 is the recognition of all leases in the balance sheet. Accordingly, lessees are no longer required to classify their leases as either finance leases or operating leases. Instead, they will be required to recognise a right-of-use asset and a lease liability for all leases in their balance sheets. In the Scania Group, the lease liability is measured on the basis of the outstanding lease payments discounted using the incremental borrowing rate, while the right-of-use asset is always measured at the amount of the lease liability plus initial direct costs. During the lease term, the right-of-use asset must be depreciated and the lease liability adjusted using the effective interest method while taking lease payments into account. IFRS 16 offers practical expedients for short-term and low-value leases that the Scania Group applies and therefore does not recognise right-of-use assets or liabilities for these types of leases. In this respect, the lease payments will continue to be recognised in the income statement in the same way as before. At the initial application date, leases whose term end before 1 January 2020 were reclassified as short-term leases, irrespective of the start date of the lease.

The accounting for lessors will in all material aspects be unchanged.

The Scania Group accounts for leases in accordance with IFRS 16, using the modified retrospective method for the first time as of 1 January 2019. Prior-year periods have not been restated. According to this method, the lease liability had to be recognised at the present value of the outstanding lease payments at the transition date. The present value calculation was based on the incremental borrowing rates as of 1 January 2019. The weighted average interest rate applied in the Scania Group was 3.7 percent.

For the purpose of simplification the right-of-use assets were recognised at the amount of the corresponding lease liability, adjusted for any prepaid or accrued lease payments. In addition, existing leases were not reassessed at the initial application date to determine whether or not they are leases under the criteria of IFRS 16. Instead, contracts classified as leases under IAS 17 or IFRIC 4 will continue to be accounted for as leases.

The right-of-use assets are recognised in the balance sheet under those items in which the assets underlying the lease would have been reported if they were owned by the Scania Group. For this reason, the right-of-use assets are presented under tangible assets.

The initial recognition of right-of-use assets and lease liabilities had the following effects as of 1 January 2019:

- Right-of-use assets amounting to SEK 4,564 m. were recognised in the opening. Of the right of-use assets recognised, SEK 31 m. had already been recognised in the balance sheet as of 31 December 2018 under finance leases.
- Lease liabilities in an amount of SEK 4,544 m. were recognised in the balance sheet and reported under non-current and current financial liabilities. Of the recognised lease liabilities, SEK 11 m. had already been recognised in the balance sheet as of 31 December 2018 under finance leases.

- Initial application did not have any effect on equity.

The difference between the expected payments for operating leases in an amount of SEK 3,999 m. discounted using the incremental borrowing rate as of 31 December 2018, and the lease liabilities in an amount of SEK 4,544 m. recognised in the opening balance sheet was mainly due to the reassessment of lease terms in accordance with IFRS 16. In this process, reasonably certain extension or termination options were taken into account in determining the lease payments to be capitalised. Moreover the opening balance sheet does not include lease payments for low-value and short-term leases.

Unlike the previous procedure, under which all operating lease expenses were reported under operating income, under IFRS 16 depreciation charges on right-of-use assets are allocated to operating income. Interest expense from adding interest on lease liabilities is reported in net financial items.

The change in the way expenses from operating leases are presented in the cash flow statement resulted in an improvement in cash flows from operating activities. Cash flows from financing activities declined accordingly. The increase in financial liabilities attributable to IFRS 16 had a negative impact on Scania Group's net debt.

This standard also results in far more extensive disclosures in the notes.

Other changes in standards and interpretations that enter into force on 1 January 2019 or subsequently are not expected to have any material impact on Scania's accounting.

Cash flow

As from 1 January 2019, Scania has aligned the presentation of cash flow statement with Volkswagen.

Parent Company

The Interim Report for the Parent Company, Scania AB, has been prepared in accordance with the Annual Accounts Act and recommendation RFR 2, "Accounting for Legal Entities" of the Swedish Financial Reporting Board.

Annual General Meeting

Scania's Annual General Meeting for the financial year 2019 will held in Södertälje, Sweden on 13 May 2020.

As from 2019 changes have been done in Cash flow statement in accordance with Volkswagen Group presentation of cash flow.

Comparative figures for 2018 have been adjusted with:

- 1) Loan receivables moved to investments in securities and loans with SEK 2 m Q4, 50 m full year.
- 2) Municipal bonds included with SEK -204 m Q4, -505 m full year, previously presented in cash and cash equivalents. Loan receivables included with SEK -2 m Q4, -50 m full year, previously presented in working capital. Loan receivables included with SEK 91 m Q4, 590 m full year, previously presented in financing activities.
- 3) Loan receivables moved to investments in securities and loans with SEK -91 m Q4, -590 m full year.
- 4) Municipal bonds moved to investments in securities and loans with SEK -450 m.
- 5) Municipal bonds moved to investments in securities and loans with SEK -955 m.

In addition to above, some reclassifications have been made, affecting comparative figures for 2018 as follows:
 Items not affecting cash flow SEK -98 m Q4, 23 m full year, taxes paid SEK 4 m Q4, -10 m full year, change in working capital SEK 447 m Q4 (whereof accrued interest on borrowings SEK 365 m), 483 m full year (whereof accrued interest on borrowings SEK 324 m), investing activities SEK -31 m Q4, 101 m full year, financing activities SEK -325 m Q4 (whereof accrued interest on borrowings SEK -365 m), -589 m full year (whereof accrued interest on borrowings SEK -324 m) and change in cash and cash equivalents SEK 3 m Q4, -8 m full year.

Fair value of financial instruments

Amounts in SEK m. unless otherwise stated

In Scania's balance sheet, items carried at fair value are mainly derivatives and current investments. Fair value is established according to various levels, defined in IFRS 13, that reflect the extent to which market values have been utilised. Current investments are carried according to Level 1, i.e. quoted prices in active markets for identical assets, and amounted to SEK 86 m.(1 005). Other assets that are carried at fair value refer to derivatives. These assets are carried according to Level 2, which is based on data other than the quoted prices that are part of Level 1 and refer to directly or indirectly observable market data, such as discount rate and credit risk. These items are carried under Other non-current receivables SEK 370 m. (274), Other current receivables SEK 182 m. (564), Other non-current liabilities SEK 1,076 m. (372) and Other current liabilities SEK 630 m. (981). Equity instrument assets are carried according to Level 3 based on unobservable data and amount to SEK 143 m. (256)

For financial assets that are carried at amortised cost, book value amounts to SEK 114,143 m. (87,980) and fair value to SEK 114,558 m. (87,593). For financial liabilities that are carried at amortised cost, book value amounts to SEK 105,609 m. (88,451) and fair value to SEK 105,898 m. (88,329). Fair value of financial instruments such as trade receivables, trade payables and other non-interest-bearing financial assets and liabilities that are recognised at amortised cost minus any impairment losses, is regarded as coinciding with the carrying amount.

For further information about financial instruments, see Note 28 Financial instruments in Scania's Annual Report for 2019.

Key financial ratios and figures

In the Interim report, Scania presents certain performance measures that are used to explain relevant trends and performance of the group, of which not all are defined under IFRS. As these performance measures are not uniformly defined by all companies, these are not always comparable with the measures used by other companies. These performance measures should therefore not be viewed as substitutes for IFRS-defined measures. The following are the performance measures used by Scania that are not defined under IFRS, unless otherwise stated.

DEFINITIONS

Operating margin

Operating income as a percentage of net sales.

Net margin

Net income as a percentage of net sales.

Net debt, net cash excluding provision for pensions

Current and non-current interest borrowings (excluding pension liabilities) less cash and cash equivalents, current investments and non-current intra-group loans to Volkswagen entities.

Capital employed ¹⁾

Total assets excluding shares and participations in group companies less operating liabilities.

Return on capital employed ^{1) 2)}

Operating income plus financial income as a percentage of capital employed.

¹⁾ Calculations are based on average capital employed for the thirteen most recent months.

²⁾ Operating income is calculated on rolling 12 months.

Amounts in SEK m. unless otherwise stated
